

Addendum 1

February 22, 2021

RFP R21-08 Downtown Wayfinding Sign Pylons – Addendum No. 1

This addendum forms part of the RFP document and shall be read, interpreted, and coordinated with all other parts. The costs of all work contained herein shall be included in the submission. The following revisions supersede the information contained in the original documents to the extent referenced and shall become part thereof.

Item No. 1 – Clarifications

1. The City is looking for pre-cast concrete only for the bases, not cast-in-place. The City is aware of the heavy weight the finished pylon will have using pre-cast.
 2. There will be no cap on top of the pylon.
 3. The design of the cut-out shape is aluminum paneling and to be left open.
 4. The pylons will be a permanent structure in the City downtown core.
 5. The City does not currently have a similar structure to view for comparison purposes.
 6. Engineered and shop drawings are not required pre-award.
 7. The pre-cast concrete bases will not have any graphical material on them.
-

Acknowledgement of this Addendum as part of your submission is required.

End of Addendum No. 1
